

Code:	SR/4/2016
Category:	RECTOR'S DIRECTIVE
Title:	Rules for Connection of Mobile Devices to the Network of TBU in Zlín
Liability:	Tomas Bata University in Zlín
Issue date:	1 January 2016
Effective:	1 January 2016
Issued by:	Prof. Ing. Petr Sáha, CSc., Rector
Prepared by:	
In cooperation with:	
Pages:	2
Appendices:	1
Distribution list:	Students and staff of TBU in Zlín
Signature of authorized person:	

Article 1

Basic provisions and definition of terms

- (1) In the buildings of Tomas Bata University in Zlín (hereinafter referred to as "TBU"), users are provided with wireless connectivity to the TBU computer network by means of their mobile devices.
- (2) The TBU network has been involved in the **eduroam** (www.eduroam.cz) international project. It is the **eduroam** network that is primarily intended for the connection of the users' mobile devices.
- (3) A user is a student or an employee of TBU, who has been assigned a user account to access the TBU network in compliance with the Rector's Directive *Rules for Computer Network Use at TBU in Zlín*, as amended; the term "users" also refers to guests and users of other educational institutions using the TBU network pursuant to relevant roaming or other contracts.
- (4) Users can connect to the **eduroam** network using valid access details provided to them by their home organization involved in the **eduroam** project.
- (5) A mobile device is e.g. a notebook, PDA, mobile phone, tablet or other devices equipped with a wireless network communication interface.
- (6) Localities at which connection to the **eduroam** network is available are marked with the **eduroam** project logo in compliance with Appendix 1.
- (7) Current information on availability at particular locations, on the mode of and on the configuration for connecting are specified at eduroam.utb.cz.
- (8) Wireless networks with other titles may be set up within the TBU network for special purposes. The TBU Information Technology Centre bears the responsibility for the setting up of such networks.

Article 2 Responsibilities of users of mobile devices

- (1) The users are obliged to:
 - a) Adhere to the rules for *eduroam* network use defined by the Roaming Policy, as amended (www.eduroam.cz).
 - b) Observe the Access Policy (AP) for the CESNET Large Infrastructure, as amended (www.cesnet.cz).
 - c) Adhere to the provisions of Rector's Directive *Rules for Computer Network Use at TBU in Zlín*, as amended.
 - d) Use only the assigned access details; the users bear full responsibility for any misuse of the access details assigned.
 - e) Use the DHCP protocol to assign an IP address. The assignment of a static IP address is a serious breach of these rules.
 - f) React to requests and instructions received from the network administration of the host as well as of the home network and from the roaming centre of CESNET (association of legal entities) without delay.
- (2) Users' mobile devices must conform to the valid standards and to the homologation sheet in accordance with the IEEE 802.11 standards for wireless access.
- (3) Mobile devices connected to the TBU network must have a suitable system configuration, security patches applied, etc. in order to be protected in an appropriate manner.
- (4) Users are not permitted to run any server applications and applications on their mobile devices which have a negative impact on the network operation or on its services, overload the network and/or waste its capacity.
- (5) Running other wireless networks than those approved in writing by the TBU Information Technology Centre is forbidden.
- (6) In the event that a user fails to observe these rules and/or uses an insufficiently protected or a virus-infected mobile device, the network administrator may temporarily withdraw the user's right to access the TBU network. Any other sanctions imposed in compliance with other regulations are not affected thereby.

Article 3 Final provisions

- (1) The TBU Information Technology Centre is authorized to monitor the observance of this Directive.
- (2) This Directive replaces Rector's Directive No. 4/2006 issued on 20 March 2006.
- (3) One Appendix is attached to this Directive:

Appendix 1 – *Eduroam* Project Logo

Appendix 1: Eduroam Project Logo
